

6' COMPRESSION ANCHOR

Engineered to address corrosion issues in pool environments and provide easier hand rail and ladder installation.

FEATURES:

- Made of copolymer
- Reduces maintenance costs & cleaning time
- Eliminates debris, corrosion, and heavy water deposits typically found lodged between the wedge anchor inside wall and assembly ideal for underwater installation of handrails and ramp rails where rust bleeds can lower water quality
- Ideal for removing and installing ladders or rails during pool deck maintenance, repairs, and renovation
- Eliminates alignment issues and the need for frequent bolt tightening common with wedge anchor assembly
- Standard colors: black, white, bone, traffic grey.
- Available in custom colors
- Built-in anchor compression ring applies even pressure on tubing, decreasing potential damage to rail or ladder
- Escutcheon-less, flush-mount design gives the rail and deck a finished look
- Accommodates recommended ADA compliant handrail and ladder tubing diameters
- Protected by U.S. Patent 7437857

Part#42696 - Black

Standard color options:

42696-W - WHITE
42696-TG -TRAFFIC GREY
42696-B - BONE

Additional parts:

35065 - COMPRESSION ANCHOR WRENCH
24098-00 - COMPRESSION ANCHOR CAP, 1.50"
23636-00 - ANCHOR KEY, STAINLESS STEEL SLIP
