

MAINTENANCE CHECKLIST

ADA POOL LIFTS

Maintenance Task to Perform	Daily	Weekly	Monthly
Charge battery overnight*			
Rinse lift with non-chlorinated water and wipe dry with soft, non-abrasive cloth**			
Clean with Spectra-Clean™ to passivate the stainless steel			
Clean and Apply Dielectric Grease to Control Box and Battery			
Test lift for full operation***			
Visual Inspection—check for visible damage and corrosion, and to ensure that all hardware is snug			
Lubricate all pivot points with Light 3-in-1 Oil (WD-40)			
Grease Lower Bearing Assembly with FDA-approved Grease using a grease gun through oil zerk			

IMPORTANT NOTES:

*When not in use, remove the battery from the lift and store it on the charger to maintain the battery's charge.

**Use only fresh water to wash your lift, not pool water!

**NOTE: Do not use high pressure power wash to rinse--damage can occur!

***DO NOT manually move the lift left and right by pushing it (unless instructed otherwise by a Spectrum technician.)

Please make copies for regular use in your facility
