

NOTE:
Field measurements are required for the product you wish to order. Please provide product accurate measurements to eliminate delays or errors in the design and manufacturing.

* These dimensions are standard production for Spectrum Aquatics and meet FINA, NCAA, USAS, USMS, and NFHS height requirements. Please contact your Spectrum Aquatics sales representative if you would like to vary these dimensions.

Step side is determined by standing behind your block while facing the pool.

If your deck has a slope, dimension A should be taken from the surface of the water to the level where the starting platform post meets the deck.
