

Dash to Sprint Upgrade Track Start, part number 2610523

The Dash to Sprint Starting Upgrade Rapid Lock Track Start Wedge shall consist of the following components:

Track Start Footrest

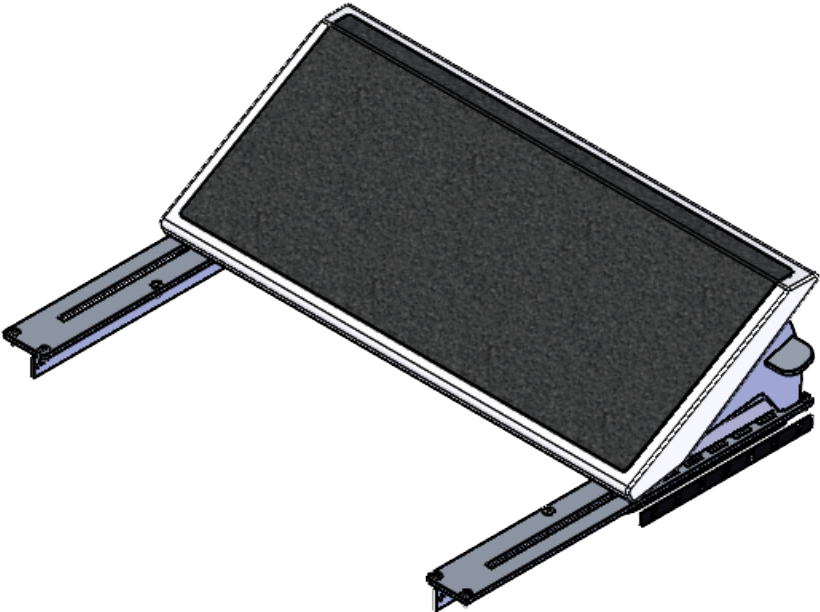

The Track Start Footrest shall slope 30 degrees from the surface plane of the Platform Top. The Track Start Footrest shall be equipped with our Rapid Lock feature allowing it to be locked into one of 7 positions. Rapid Lock shall be operated by lifting one of three Tabs, two on either side, one in the center, to unlock the unit. The Track Start Footrest is then able to freely slide to the user's desired position and then securely locked back by releasing the tabs. Slide features and lock pockets shall be built into the Platform Top. Rapid Lock and Slides shall allow for 7 1/2" total travel, locking in seven positions spaced evenly. The Footrest Body shall be injection molded from 30% glass reinforced polypropylene while it's frame shall fabricated of 316L stainless steel. The Slides shall be UHMW. The Footrest Body shall be covered by Surface Texture that matches the Platform Top.

Surface Texture

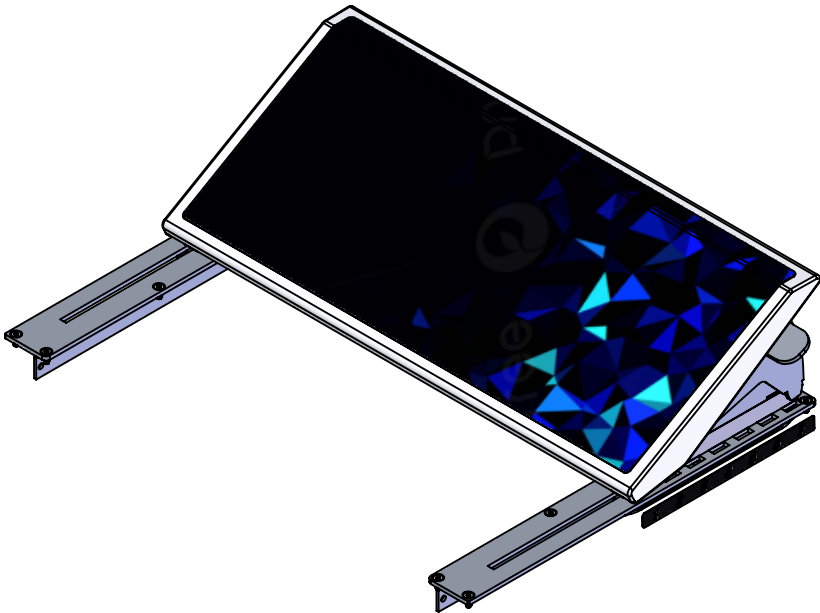

The Surface Texture shall be covered with abrasive particles bonded by tough, durable polymer to a dimensionally stable plastic film. The reverse side of the film will be coated with a pressure-sensitive adhesive covered by a removable protective liner that is removed upon factory application to the Footrest Body. The Surface Texture shall be available in standard black or white with options for custom logos and other optional surfaces.

Warranty

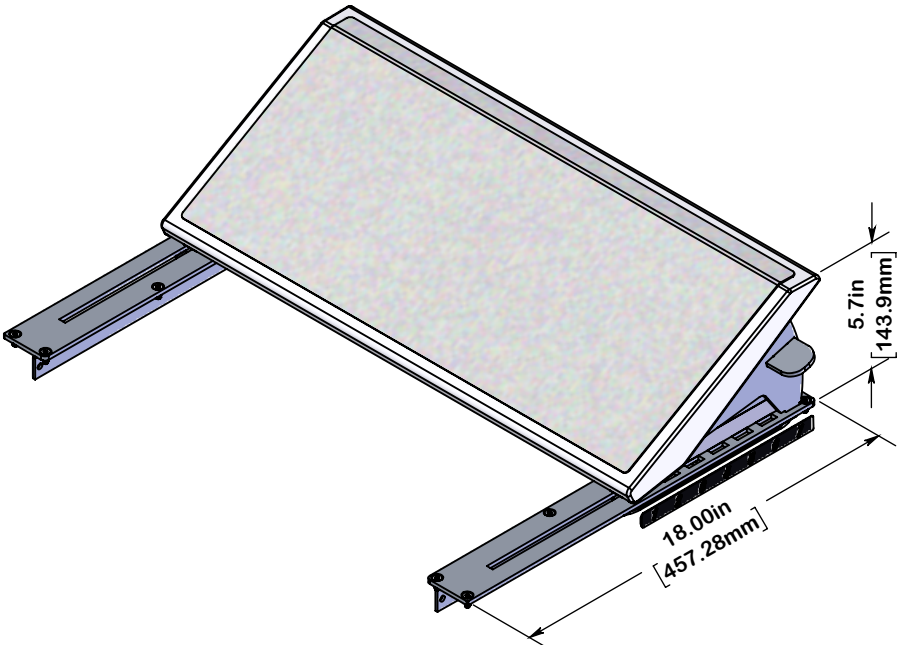

Spectrum standard warranty.

Black Surface Texture

Custom Logo Surface Texture (varies)

White Surface Texture
